

National Forum Seminar Series

*

National Forum for the Enhancement of Teaching and Learning

The inaugural National Forum Seminar Series has launched with a programme of 62 seminars happening between February and June 2014. Each seminar received up to €1000 in funding to host a seminar related to the Forum's enhancement theme of 'Teaching for Transitions' or the Forum's larger work plan. Many seminars will be webinars and accessible remotely. The seminars are open to all universities, institutes of technology, and private colleges. All organisers will produce a summary of the seminar which will be available on the Forum website. To register your attendance please contact the person listed in the relevant seminar.

Visit the National Forum website for the full programme:
